

## Use FaceTime with your iPhone, iPad, or iPod touch

Learn how to use FaceTime to make video and audio calls from your iPhone, iPad, or iPod touch.

You can use FaceTime over Wi-Fi<sup>1</sup> or over cellular on supported iOS or iPadOS devices.

## Turn on FaceTime

Open the FaceTime app and sign in with your Apple ID. You can also do this from Settings > FaceTime.

If you're using an iPhone, FaceTime automatically registers your phone number. To also register your email address on your iPhone, go to Settings > FaceTime > Use your Apple ID for FaceTime, and sign in with your Apple ID.

If you're using an iPad or iPod touch, register your email address by tapping Settings > FaceTime > Use your Apple ID for FaceTime, and sign in with your Apple ID.

---

## Make a FaceTime call

To make a FaceTime call, you need the person's phone number or registered email address. There are a few ways to make a FaceTime call:

- In the FaceTime app, tap the plus button  and type the person's phone number or email address. Tap the number or address, then tap Audio  or Video .
  - If you have the person's phone number or email address saved in your Contacts, you can start typing their name and tap the name when it appears. Then tap Audio  or Video .
  - You can also start a FaceTime video call from your iPhone during a phone call. Tap the FaceTime icon in the Phone app to switch to FaceTime.
- 

## Use FaceTime Live Photos

With iOS 12.1.4 and later, and iPadOS, you can capture moments with your friends and family using [Live Photos](#) during a FaceTime video call. Here's how:

1. Start a FaceTime video call.
2. Tap the shutter button  to take a photo.
3. Go to your Photos app to find the photos you saved.

To save FaceTime Live Photos, all participants need iOS 12.1.4 or later, or iPadOS. Not all features of FaceTime Live Photos are available with earlier versions of iOS. FaceTime Live Photos doesn't work with iOS 11.

---

You can use FaceTime on any of these devices on Wi-Fi: iPhone 4 or later, iPad Pro (all models), iPad 2 or later, iPad mini (all models), and iPod touch 4th generation or later (only iPod touch 5th generation or later support FaceTime audio calling).

With a cellular data plan, you can also use FaceTime without Wi-Fi on any of these devices: iPhone 4s or later, iPad Pro (all models), and iPad (3rd generation or later). Cellular data charges will apply.
