-New Office Location-

Grand Opening

Where: Woodstock, VA

The address of our new office is 1066 Hisey Avenue in Woodstock, VA.

When: Opening January 22

Office hours will be **7:45 a.m. to 3:00 p.m.**

Who: This location will be serviced initially by Ashley Watterson, DNP.

Ashley Watterson is a board-certified Nurse Practitioner with over 15 years of combined experience in the healthcare field. She graduated with honors from Shenandoah University with her Bachelor of Science in Nursing in 2007. While practicing as a Registered Nurse on the Post-Surgical/Trauma Unit, she decided to further her education. She obtained her Master of Science in Nursing and completed her Nurse Practitioner training through the University of Cincinnati in 2012. Upon graduating, Ashley obtained her board certification through the American Nurses Credentialing Center (ANCC) as an Adult Nurse Practitioner. She completed her doctoral program in 2022 through Maryville University of St. Louis. Ashley possesses experience in the acute/urgent care setting and primary care.

Throughout her time as a Nurse Practitioner, Ashley has maintained active memberships with several national organizations including the ANCC, the American Academy of Nurse Practitioners (AANP), and the Rho Pi, Beta Iota, and Omicron-Iota Chapters of Sigma Theta Tau International Honor Society of Nursing. Ashley is honored to have the chance to serve the Dermatology Associates, Inc. community at Woodstock.

-Treatments-

Superficial Radiation Therapy

GentleCure, an exciting new skin cancer treatment, is now offered at Dermatology Associates! Also known as image-guided superficial radiation therapy (IG-SRT), GentleCure is a non-invasive effective alternative to Mohs surgery for basal cell and squamous cell carcinomas. Administered over several weeks in our office by a radiation therapist, it is the first and only treatment to use low-energy radiation therapy (skin-deep only) guided by high-resolution ultrasound images to direct and assess response. With cure rates similar to Mohs surgery, there is no cutting, bleeding, pain, surgical scarring, or reconstructive surgery. To find out more, go to www.skincureoncology.com.

- **No pain or discomfort**
- **No down-time**
- **99% satisfaction rate**
- **99% cure rate**
